2. FUNDING RULES & GUIDELINES

Profit Target

Traders must achieve the designated 8% milestone target to satisfy the applicable account requirements and unlock profit-split withdrawals.

Daily Drawdown

Maximum allowable loss in a single trading day is capped according to the selected funding tier.

Overall Max Loss

The overall loss limit must be maintained according to the selected package. The final Terms & Conditions should define the exact calculation method.

Leverage

Funded accounts operate on standard 1:100 leverage.

Profit Split

Withdrawals are advertised at up to 25%, 35%, or 50% depending on the selected package.

Trading Styles & EAs

Automated trading bots, Expert Advisors (EAs), and manual strategies are permitted under the applicable risk rules.

3. CHARTAXIOM MACHINE BONUS

The Funding Program should look and feel like a native part of the existing ChartAxiom Machine website, using the same black, gold and metallic visual identity.

Starter Funded: Free \$10 Machine Access • Most Popular: Free \$20 Machine Trial • Pro Elite: Free \$30 Machine Access.

The existing XAUUSD product is positioned around a Dedicated Gold Scalping Engine, Macro News Priority Filter, Dynamic Live Sync Support, all-timeframe scalping, chart/technical/SMC/indicator detection, and mathematics/logic-based systems.

4. PRE-REGISTRATION & PAYMENT

Customers select their funding package and submit their Name, Funding Package, Payment TxID, and Email Address.

7. IMPORTANT CLARIFICATIONS BEFORE LAUNCH

Before accepting customer payments, clearly define whether the funded accounts are real or simulated, whether drawdown is trailing or static, exactly how daily loss is calculated, what constitutes a trading day, payout eligibility, breach procedure, refund policy, and applicable jurisdiction.

Keep the wording consistent: if the program is described as having no evaluation test, avoid contradictory references to phases unless those phases are explicitly explained.
